# Improve Your Work Efficiency with Dual Scanning

## High-Speed Scanning

95 ppm / 190 ipm (KV-S7097)  
75 ppm / 150 ipm (KV-S7077)

\* A4/Letter, Landscape, 300 dpi, Binary/Colour

- ✓ ADF / Flatbed Scanning
- ✓ Single Touch Scanning
- ✓ Multi-Crop
- ✓ Double-Feed Skip

## ADF/Flatbed Scanning

Scanning is possible from the ADF or flatbed, depending on the document.

### ADF

- 200 Sheets
- Duplex Scanning

### Flatbed

- Books
- Thin Papers

## Single Touch Scanning

Easy scanning with a single press of the button.

\* Previously set jobs must be registered from the PC to the scanner.  
Up to 9 job settings can be registered.

Select the registered scan settings from the display.

Press the button.

Scanning is easy, even when settings are complicated.

## Multi-Crop

Place various sized documents on the flatbed and scan them all at once, then crop whatever parts you need.

Scan all together.

Crop each one.

## Double-Feed Skip

Cancels double-feed errors to continue scanning.

The scanner pauses for labels or envelopes.

Press the skip button.

Scanning starts again.

## Hardware Image Processing (ADF Only)

Drops in the scanning speed can be minimised by using hardware for frequently used image processing.

## Specifications

|                            |   |
|----------------------------|---|
| Scanning Face              | Duplex & Flatbed  |

\*1 When scanning a document larger than A5 size at high resolutions over 600 dpi, the scanning may fail due to insufficient memory. \*2 The scanning speed differs depending on the host computer, the operating system, the application, the measuring method, the quantity of data in the image, and the paper type. The scanning speed depends on a measuring method of Panasonic. \*3 Use "Thin Paper Feeding Mode" when scanning the document less than 40 g/m<sup>2</sup> (10.6 lb.). For details about "Thin Paper Feeding Mode", refer to the Image Capture Plus, TWAIN, or ISIS help.

\*4 About the environmental conditions of Imprinter Unit (KV-SS014), refer to the "Information" leaflet of the optional imprinter unit. When printing in conditions outside of the imprinter unit's operating environment, the printing result may be faded or printing may not occur.

As an ENERGY STAR® partner, Panasonic has determined that this product meets the ENERGY STAR guidelines for energy efficiency.

## Digital Imprinter

The "Digital imprinter" enables additional printing to the scanned image data.
